Antibiotics

VETERINARY DRUGS & EQUIPMENTS

PENSTREP 20/20

An antibiotic which acts on Inhibition of protein synthesis and cell wall synthesis.

OXYTETRACYCLINE 10% INJECTION

An antibiotic which stops the spread of the infection by interfering with the ability of bacteria to produce essential proteins (short acting)

Antibiotics

VETERINARY DRUGS & EQUIPMENTS

OXYTETRACYCLINE 20% INJECTION

An antibiotic which stops the spread of the infection by interfering with the ability of bacteria to produce essential proteins (long acting)

OXYTETRACYCLINE 20% POWDER

Oxytetracycline 20% Powder can be given with water or feed

Antibiotics

VETERINARY DRUGS & EQUIPMENTS

OXYTETRACYCLINE + VITAMINS

Oxytetracycline + Vitamins are combinations of vitamins and antibacterial for the sake of killing the bacterial and nourishment of the host

SULPHADIMIDINE 333MG/ML INJECTION

Sulphadimidine 333mg/ml Injection is indicated for gastrointestinal, respiratory and urogenital infections caused by micro-organisms sensitive to sulphadimidine

Antibiotics

VETERINARY DRUGS & EQUIPMENTS

TYLOSIN 200 MG INJECTIONS

Tylosin 200mg Injection used to treat bacterial infections in a wide range of species and has a high margin of safety. It has also been used as a growth promotant in some species, and as a treatment for colitis in companion animals.

INTRA-MAMMARY INFUSION

Intra-mammary infusion effectively controls mastitis

Antibiotics

VETERINARY DRUGS & EQUIPMENTS

ENROFLOXACIN 10%, ORAL SOLUTION

Enrofloxacin is a broad-spectrum antibiotic used in veterinary medicine to treat animals afflicted with certain bacterial infections.

ENROFLOXACIN 10%, INJECTION

Enrofloxacin is a broad-spectrum antibiotic used in veterinary medicine to treat animals afflicted with certain bacterial infections.

Anthelmintics

VETERINARY DRUGS & EQUIPMENTS

TETRAMISOLE + OXYCLOZANIDE

Tetramisole + Oxyclozanide is a broad spectrum anthelmint which is used to treat mature and developing immature forms of gastro intestinal roundworms, lung worms, adult liver flukes and tapeworms.

OXYCLOZANIDE + LEVAMISOLE

broad spectrum anthelmint which is used for gastrointestinal and pulmonary nematodes infections, chronic fasciolosis.
3) Ivermectin Injection 1% is an ecto and endo parasiticide drug which kills all parasitic stages with controlling gastrointestinal nematodes

Anthelmintics

VETERINARY DRUGS & EQUIPMENTS

IVERMECTIN INJECTION 1%

Ivermectin Injection 1% is an ecto and endo parasiticide drug which kills all parasitic stages with controlling gastrointestinal nematodes eye worms and lung worms.

ALBENDAZOLE

Albendazole broad spectrum anthelmint which is used to treat mature & developing immature forms of gastro intestinal roundworms, lung worms, adult liver flukes and tapeworms.

Anthelmintics

VETERINARY DRUGS & EQUIPMENTS

FENBENDAZOLE BOLUS

Fenbendazole bolus
an anthelmint which is used to
treat gastro intestinal nematodes
and lungworms.

Fenbendazole granules 20%, 22%
this are the same as the
fenbendazole groups
while it's on the form of granules

5

FENBENDAZOLE GRANULES

20%, 22%

Fenbendazole granules 20%, 22%
this are the same as the
fenbendazole groups
while it's on the form of granules

6

Anthelmintics

VETERINARY DRUGS & EQUIPMENTS

TETRAMISOLE HCL

Tetramisole HCL
an anthelmint indicated for
gastrointestinal nematodes,
lung worms % eyeworms

OXYCLOZANIDE

Oxyclozanide is an antiparasitic active
ingredient used in veterinary medicine
against internal parasites (mainly flukes)
of livestock.

Anthelmintics

VETERINARY DRUGS & EQUIPMENTS

TRICLABENDAZOLE

Triclabendazole used for the treatment and control of acute, subacute and chronic cases of fasciolosis

IVERMECTIN BOLUS

Ivermectin bolus is an ecto and endo parasiticide drug which kills all parasitic stages with controlling gastrointestinal nematodes eye worms and lung worms which is available in the form of bolus and given by the oral route.

Antiprotozoals

VETERINARY DRUGS & EQUIPMENTS

DIMINAZEN DI ACETURATE

The drug diminazen is used to treat a variety of protozoal diseases in domestic livestock

ISOMTAMIDIUM CHLORIDE

Isomtamidium chloride used for curative and preventive treatment of animal trypanosomiasis.

Antiprotozoal

VETERINARY DRUGS & EQUIPMENTS

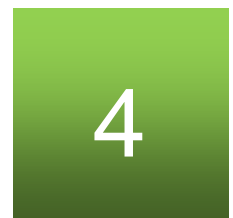

HOMIDIUM BROMIDE

Homidium Bromide is an organic bromide salt. It has a role as a trypanocide drug.

AMPROLIUM 20% POWDER

Amprolium 20% Powder is anti-coccidia powder which is used as treatment and preventive measures for laying chickens.

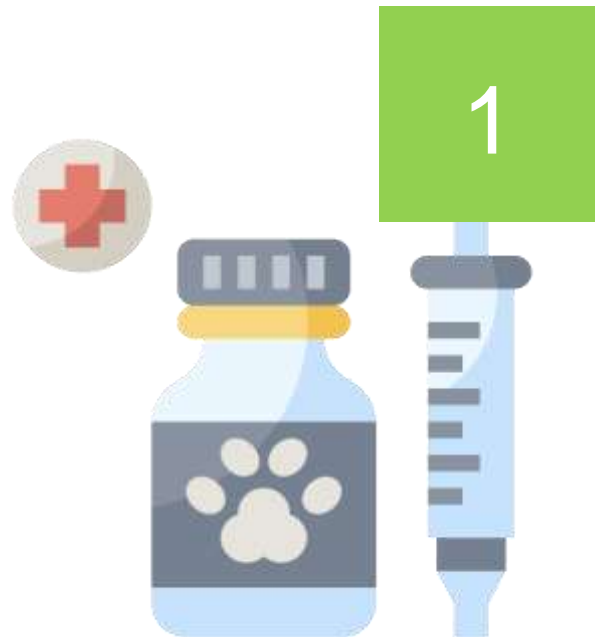

Immunological Preparations/Vaccines

VETERINARY DRUGS & EQUIPMENTS

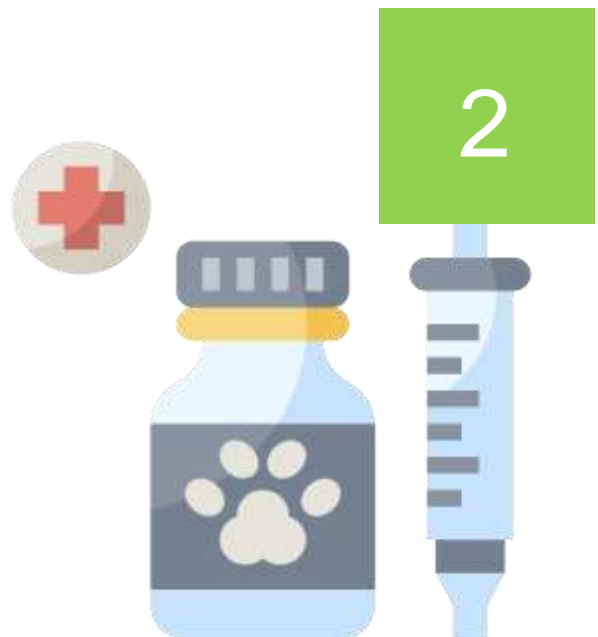

CANINE DISTEMPER VACCINE

A vaccine recommended for use in healthy dogs as an aid in the prevention of disease caused by canine distemper virus, hepatitis and respiratory disease, canine para influenza virus, and canine parvovirus.

COCCIDIOSIS VACCINE

A vaccine recommended to use in healthy broilers as an aid in the prevention of disease caused by coccidia

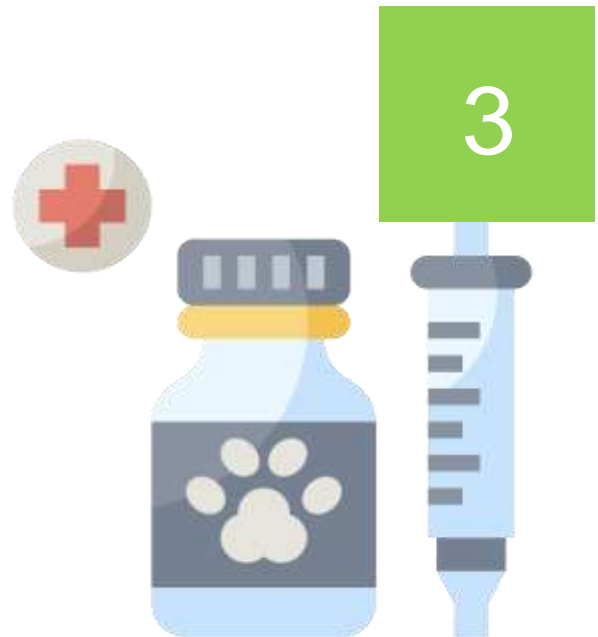

Immunological Preparations/Vaccines

VETERINARY DRUGS & EQUIPMENTS

FOWL CHOLERA VACCINE

A vaccine recommended to immunize turkeys and chickens against fowl cholera

MAREK'S VACCINE

Marek's Vaccine is vaccine is recommended for in ovo vaccination of 18- to 19-day-old embryonated chicken eggs and subcutaneous vaccination of healthy one-day-old chickens.

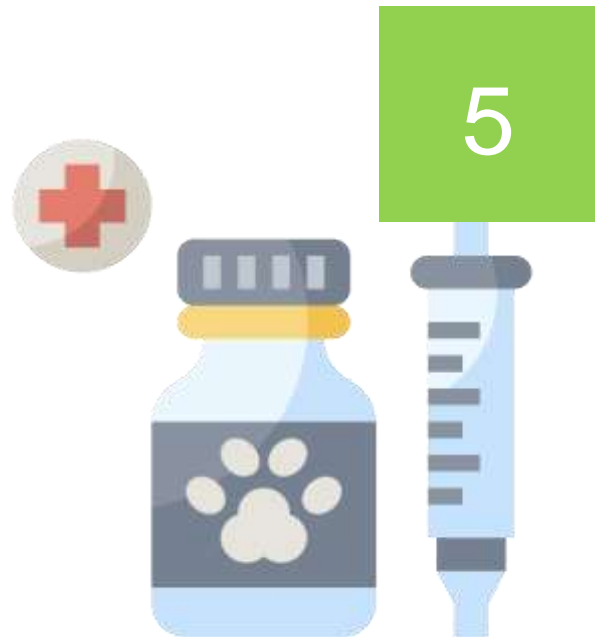

Immunological Preparations/Vaccines

VETERINARY DRUGS & EQUIPMENTS

NEW CASTLE VACCINE

The vaccine is recommended for the vaccination of healthy chickens 14 days of age or older by drinking water administration or by aerosol spray

PASTEURELLA VACCINE

the Pasteurella (Pneumonia) Vaccine is for the vaccination of healthy goats, sheep and cattle as an aid in the prevention of pneumonia

Immunological Preparations/Vaccines

VETERINARY DRUGS & EQUIPMENTS

RABIES VACCINE

The Vaccine is recommended for the vaccination of healthy dogs as an aid in the prevention of rabies virus.

SALMONELLA VACCINE

The Vaccine is recommended for the vaccination of healthy animals as an aid in the prevention of salmonellosis.

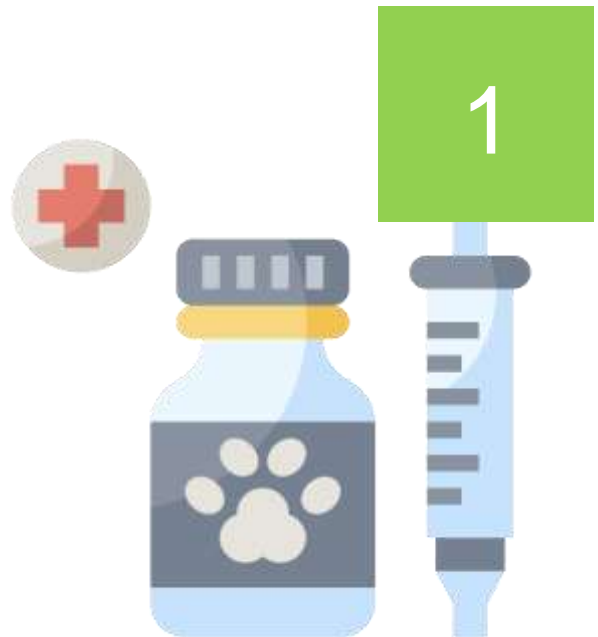

Vitamins, Minerals, Amino acids, Fatty Acids and Combinations

VETERINARY DRUGS & EQUIPMENTS

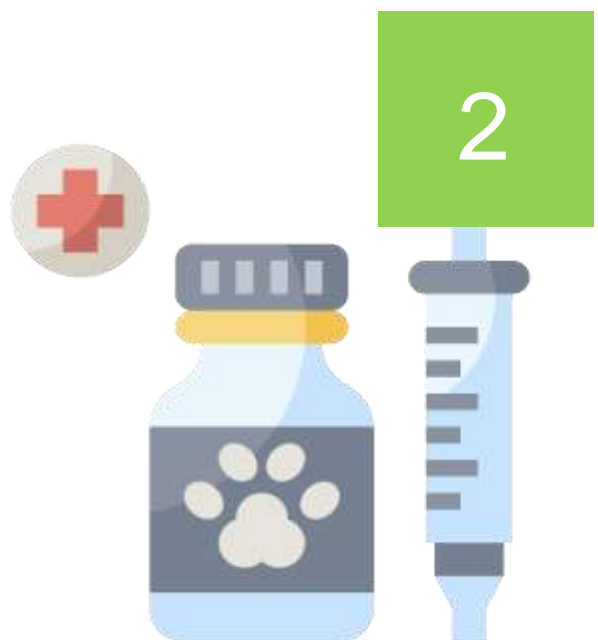

VITAMINS – SINGLE AND COMBINATIONS

Vitamins – Single and Combinations are essential nutrients which are used to boost immune system and to facilitate healing process.

MINERALS – SINGLE AND COMBINATIONS

Minerals – single and Combinations helps the body to grow, develop and stay and healthy.

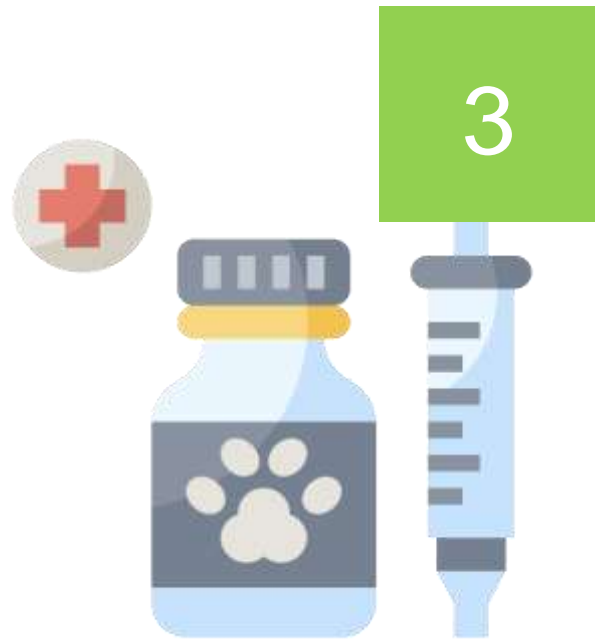

Vitamins, Minerals, Amino acids, Fatty Acids and Combinations

VETERINARY DRUGS & EQUIPMENTS

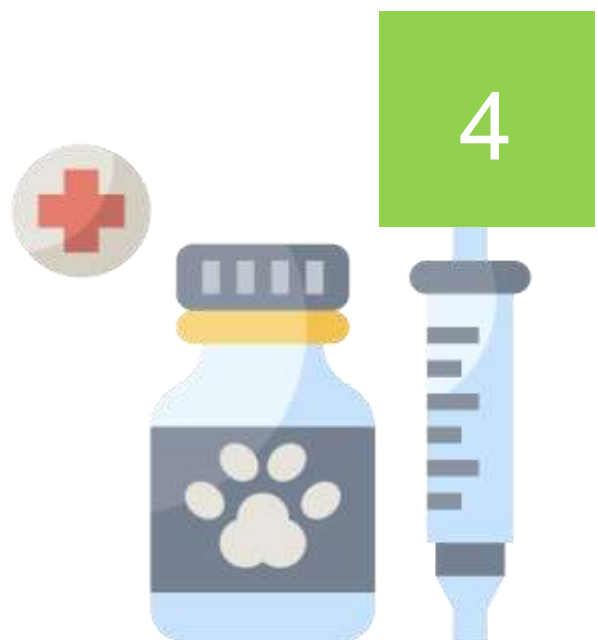

AMINO ACIDS – SINGLE AND COMBINATIONS

Amino acids – Single and Combinations are essential nutrients which helps for the Breakdown of food, Growth, Repairing of body tissue,4) Fatty Acids – Single and combinations used as energy for the muscles, heart, and other organs as building blocks for cell membranes and as energy storage for the body.

VITAMINS + MINERALS ARE COMBINATIONS OF VITAMINS AND MINERALS

Vitamins + Minerals are combinations of vitamins and minerals They are used for boosting up immune system and for the overall health maintenance of the body of the animal.

Vitamins, Minerals, Amino acids, Fatty Acids and Combinations

VETERINARY DRUGS & EQUIPMENTS

VITAMINS + MINERALS + AMINO ACIDS + FATTY ACIDS

Vitamins + Minerals + Amino acids + Fatty acids a unique combination of essential nutrients to improve production and general health of animals

Acaricides

VETERINARY DRUGS & EQUIPMENTS

DIAZINON 60% W/V

Diazinon is an organophosphorus compound very effective for the control of ecto Parasites (mange, mites, ticks, lice, biting flies & blow flies) in cattle, buffaloes, camels, sheep, goats, horses, donkeys, mules and animals & poultry houses.

CYPERMETHRIN

Cypermethrin for veterinary use in cattle, sheep, goats, pig, poultry, horses, dogs and cats against external parasites: ticks, flies, fleas, lice, mites

Acaricides

VETERINARY DRUGS & EQUIPMENTS

DELTAMETHRIN POUR-ON SOLUTION, 1%

This product is one of the numerous insecticidal pour-on for cattle, sheep and other livestock containing synthetic pyrethroids for the control of flies, lice, mites, ticks and other external parasites.

AMITRAZ 12.5% AMITRAZ

Amitraz 12.5% Amitraz is a chemical (triazapentadiene) that kills insects and spiders on plants and pets.

Veterinary Equipment

VETERINARY DRUGS & EQUIPMENTS

1
